

DAO-MAIL

A NEW WAY OF DAO COMMUNICATION

A PROJECT BY STRAW HATS

WHY?

- Reading Proposals from forum is quite time-consuming and not very interesting unless you are a dev.
- The DAO Admin can just fetch all DAO members using a click and can share a brief summary of any new proposal to all the members in few clicks.
- The members are fetched using ARAGON SDK using which the DAO is also created.

BASIC

Mail-DAO aims to provide functionality of mailing service to DAO's for ease of communication in work flows.

Mail-DAO provides Token-gated access to Member's only chat .

Group Chat : No. of tokens $< x$ (Eg : 5)

Admin Chat : No. of tokens $> x$ (Eg: 10)

FLOWCHART

Dao Admin comes and
Creates a Group Chat
and a Admin Chat with
Token Gatted access.

PHASE 1

DAO Members can also
chat depending on
No.of tokens they hold
Implemented through
PUSH Group CHat.

PHASE 2

Either a Admin or
Member Role will be
assign depending on
that user can chat or
not.

PHASE 3

FLOWCHART

DAO Admin will create
a DAO on ARGON.

PHASE 4

From the DAO ID
provided by the
Admin, we fetch the
DAO and its Members

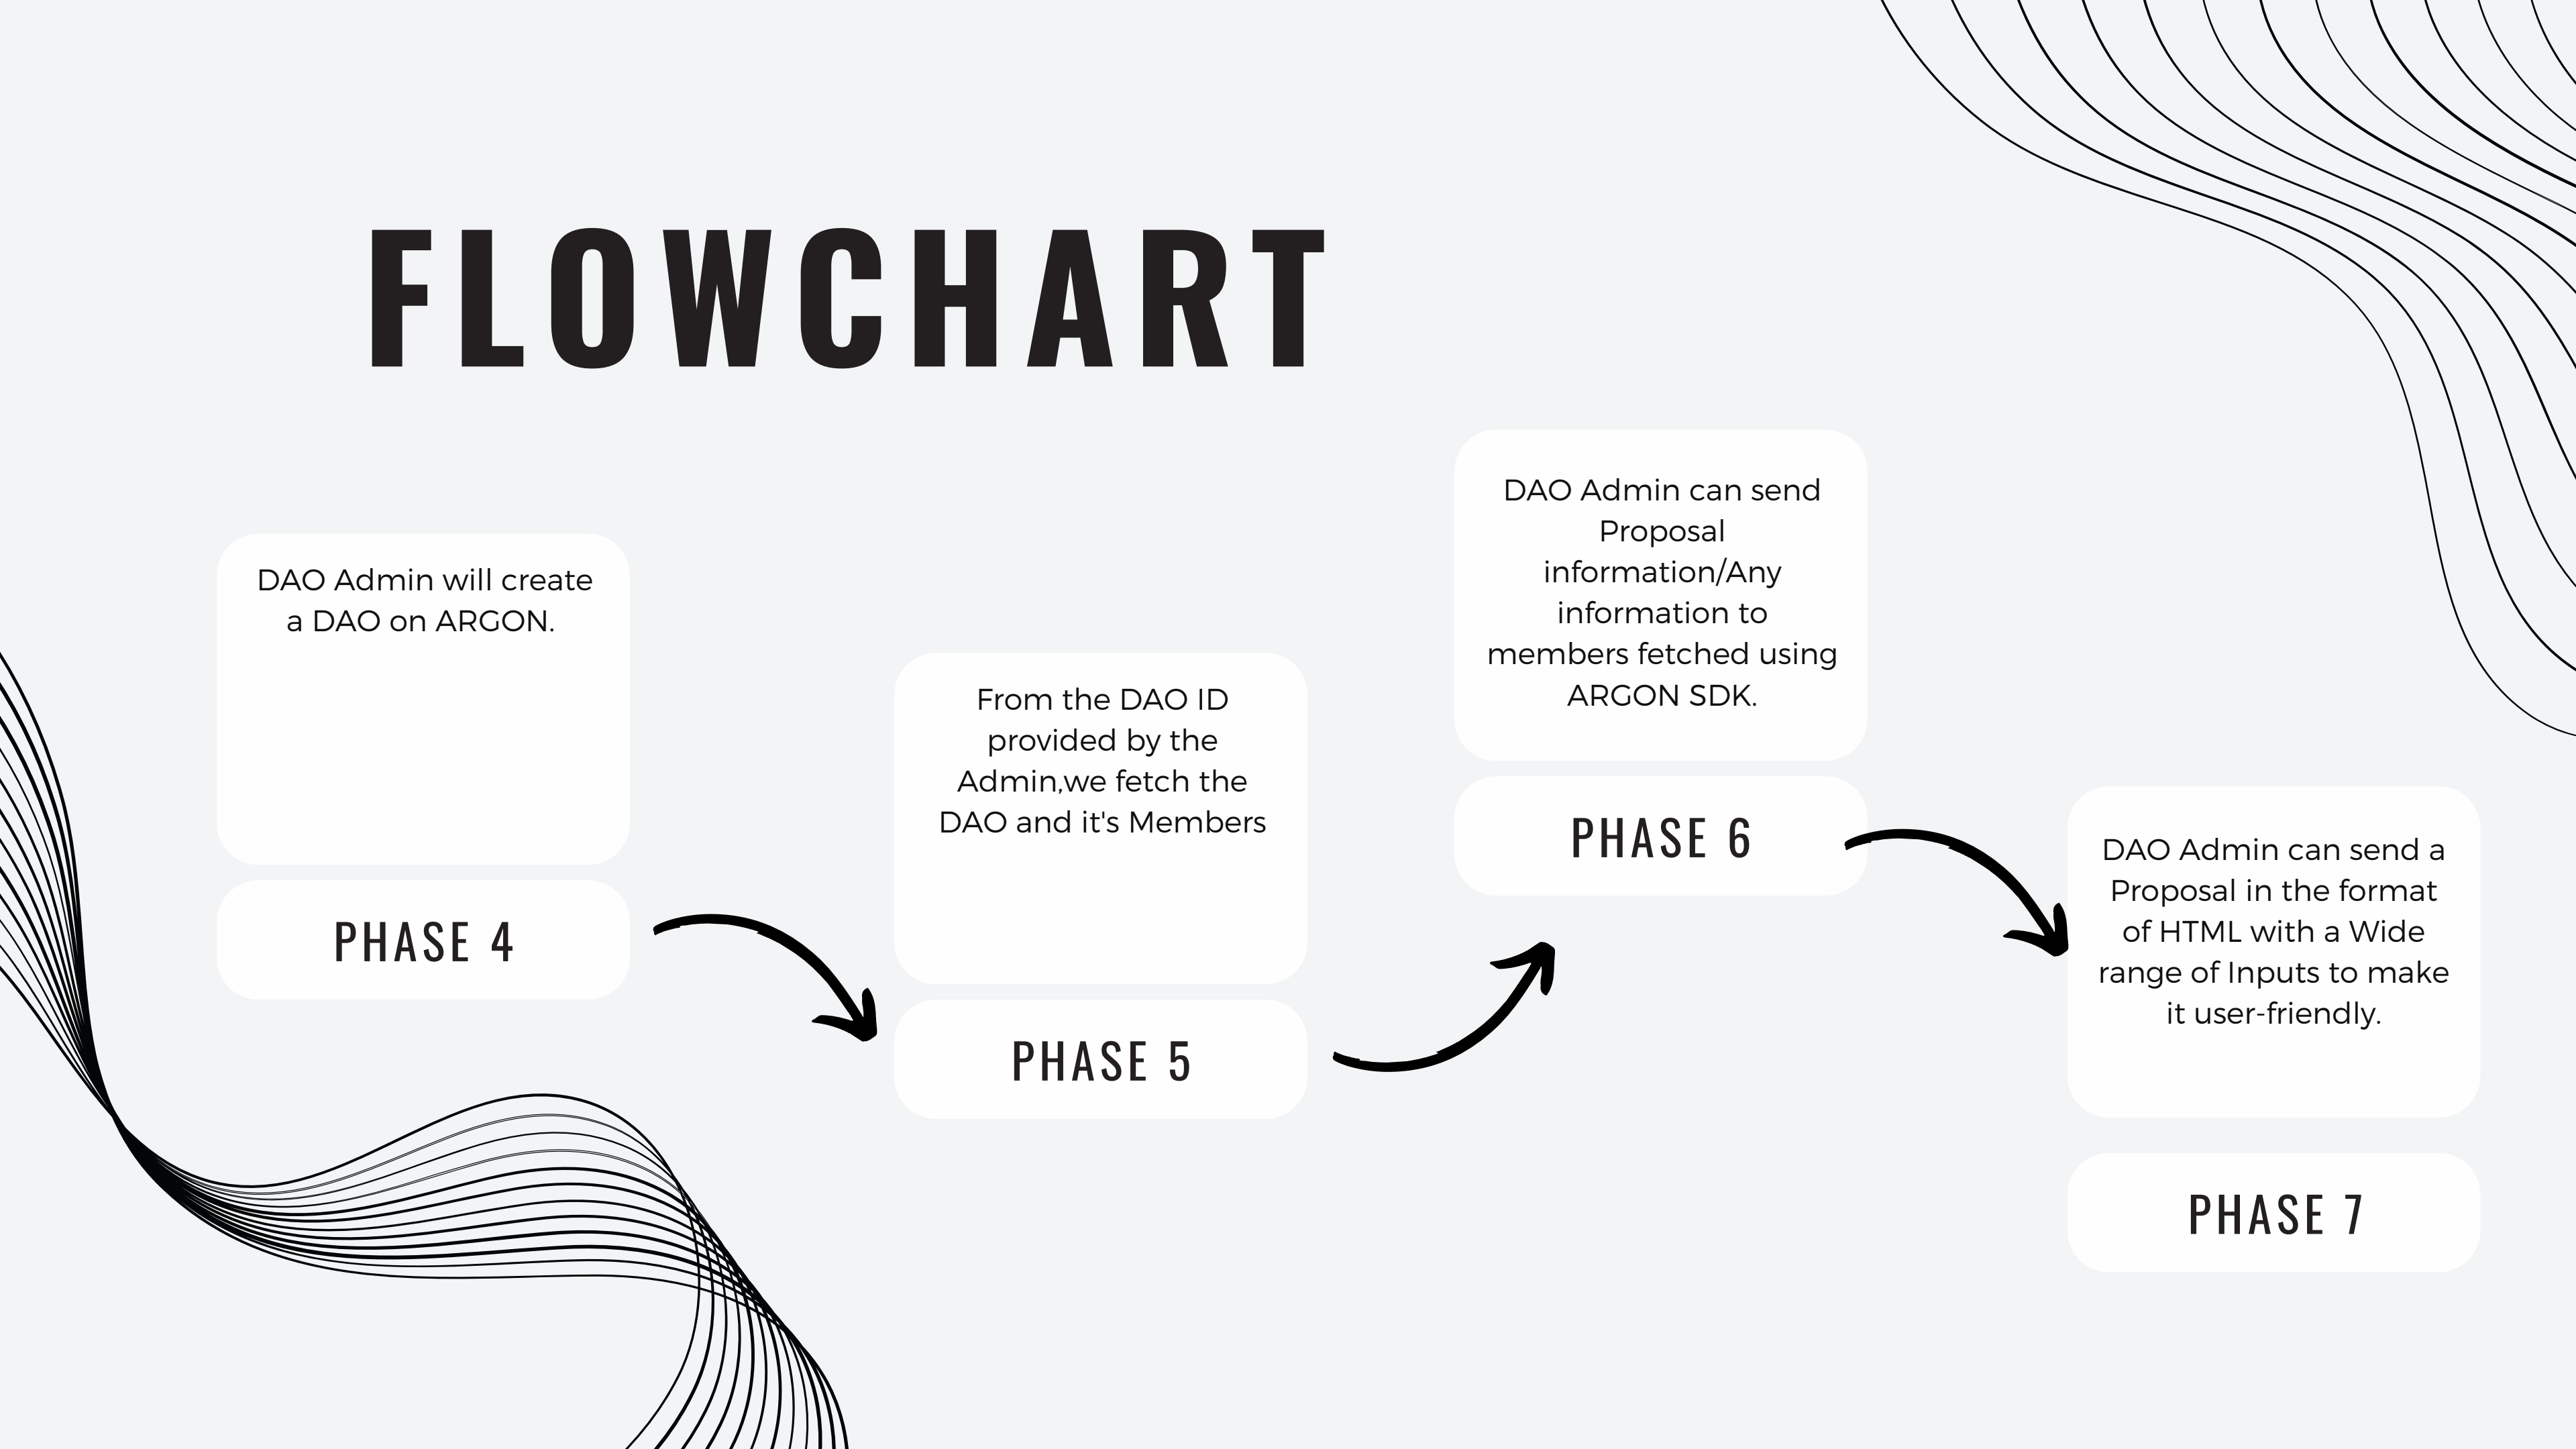

PHASE 5

DAO Admin can send
Proposal
information/Any
information to
members fetched using
ARGON SDK.

PHASE 6

DAO Admin can send a
Proposal in the format
of HTML with a Wide
range of Inputs to make
it user-friendly.

PHASE 7

LIVE DEMO

What could possibly go wrong....

FUTURE SCOPE

CROSS CHAIN
DAO
COMMUNICATION

ROLES &
PRIVILEGES

THANK YOU
